

Bangladesh Integrated Household Survey (BIHS): At A Glance

Addressing complex challenges requires integrated data. BIHS is the most comprehensive household survey in Bangladesh to date. Explore IFPRI's BIHS dataset and use its integrated format to tackle critical issues facing Bangladesh.

MODULES

BIG DATA, BIG IMPACT

6 continents

Have researchers & practitioners using the BIHS dataset

Representative of

- Rural Bangladesh
- 7 Divisions
- USAID - supported Feed the Future Zone

6500
Households surveyed

Panel Survey Timeline

- 2011/12
- 2015
- 2018

View Datasets

2011/12: rebrand.ly/BIHS2011

2015: rebrand.ly/BIHS2015

Unique Features

Plot level data on agricultural production & practices

Dietary intake of individual household members

Anthropometric measurements of all household members

Data to calculate Women's Empowerment in Agriculture Index (WEAI)
